The Offices and Programs of the Pawnee Nation have had many accomplishments this year and continue to set and meet new goals as the administrative capacity continues to increase, which will allow the Pawnee Nation to grow economically towards sustainability.

Given all of the accomplishments of this year, the employees of the Pawnee Nation, Pawnee Tribal Development Corporation, and the Pawnee Nation Housing Authority are to be commended for their continued efforts to advance the lives and culture of the Pawnee Nation.

Though we are proud of all the employees associated with the Pawnee Nation, all our efforts would not have happened without the continued support from the tribal members.

Hiri we turrahe (Thank you!)

Message from President Pratt

Nowah! I would like to take this opportunity to thank you, the Pawnee people for all of the success we are experiencing as a Nation. I also would like to thank the past administration, who started off the year in office, for their dedication to the Pawnee Nation. May the blessings from Atius continue for our people.

The Pawnee Nation, the President’s Office and Business Council have made great strides moving our Nation forward. We have had a very busy year on all fronts. This past summer, our economic development branch of TDC has purchased a screen printing shop and in the fall purchased the ‘Snak-N-Pak’ and ‘BJ’s’ convenience stores. The Tribal Development Corporation is in the process of changing the names and look of both stores within the next year. Now, if anyone is buying gasoline in the Pawnee area they are filling up our bank accounts! The expansion of the StoneWolf Casino is also underway. We look to report more of the accomplishments and goals of our Tribal Development Corporation in providing more economic ventures for the Pawnee Nation.

In November of this past year, the Pawnee Nation Elder Center was completed on our campus. We have also begun construction on the new Pawnee Nation Resource Complex and soon will begin to expand our Wellness Center to include a swimming pool. We commend our ICDBG program for management of these projects.

Our administrative accomplishments have been very good for the Pawnee Nation as well. For the first time ever, we now offer health insurance to our employees. We are moving right along to become an employer of choice. In addition to expanding employee benefits we have also established an Attorney General’s Office and a new Cultural Resources Division. Last year we successfully negotiated three years of Indirect Cost Rate Proposals and have been working vigilantly on trust and water rights issues.

We honor and remember those who have passed on this past year, especially Elizabeth Blackowl, our former Pawnee Nation President. She always thought of her people and would not hesitate to ask questions to get answers. Her people were never far from her mind as she tried the best she could to advocate for their rights and voice their concerns. The legacy she has left will not be forgotten, she is in the Lords presence and she will be missed by all.

We consider it an honor to work for the benefit of our people and will continue with the forward momentum to bring even more good things to our people in the future. I hope that you take the time to read all the reports from the programs and entities provided in this annual report. Thank you to all the employees who provide programs and services to our people. Your hard work is appreciated.

W. Bruce Pratt

PAWNEE BUSINESS COUNCIL

The Nasharo Council consists of eight (8) tribal members. Each Band selects (2) representatives to serve on the Nasharo Council. The Nasharo Council has the right to review all acts of the Pawnee Business Council regarding the Pawnee Nation membership and Pawnee Nation claims or rights growing out of Treaties between the Pawnee Nation and the United States.

The bands elect their respective representatives under the rules and regulations prescribed by the Chief’s of each Band. Representatives selected serve until the next regular selection of members of the Nasharo Council are chosen.
Pawnee Indian Veterans Organization

The Pawnee Indian Veterans Organization has honored service men and women, since 1946 with the Pawnee Indian Veterans Homecoming and will continue the tradition though many dances designed to honor Native American culture and veterans from all military branches.

Pawnee Indian War Mothers Organization

The Pawnee War Mothers have always been an active organization within the Pawnee Nation of Oklahoma with many sons and daughters serving in every military conflict and branch of the United States Government. The War Mothers have their own song and when active duty service members come home, we can request this song at dances to honor our sons and daughters.

The Pawnee War Mothers currently support our Veteran’s organization as much as possible with their fundraisers, events and concessions at their Dances. The Pawnee War Mothers participated in the Pawnee Indian Veterans Homecoming Parade, taking first place in the entered category.

A tradition of the Pawnee War Mothers is to take gifts to the Veterans Administration Hospital in Oklahoma City for Mother’s Day so that wounded service members are afforded the opportunity to pick out a gift for their Mother and have it sent to her.

In October 2015, we held an election of officers wherein Kathaleen Daniels was elected President, Barbara Attocknie as Vice-President, Rebecca Littlesun-Hawkins as Treasurer, and Denise Miller as Secretary/Chaplain. Current War Mothers include Dolores Riley, Sharon Swartz, Walthena Chapman Lawrence, Angie EchoHawk, Katherine Keeling. Angels include Donna Mulder and Phammie Littlesun. We are very grateful to have supportive Angels who help us achieve all our goals.

The Pawnee Public Schools, grades K-5, again made Christmas Cards for all service members. The children responded with the most wonderful Christmas cards. We also obtained donations of candy and other miscellaneous items. We boxed up these items and mailed them to service members stationed around the world.

We are very grateful for all our sons’ and daughters’ sacrifices and efforts made for the freedom and peace we enjoy.

Executive Director Introduction

Hello Pawnee Nation! I just wanted to take this opportunity to introduce myself and also give you a little insight into what the executive office has been up to. My name is Andrew Knife Chief, my father is Charles D. Knife Chief, my mother is the former Kimberly K. Long of Anaheim, and my grandparents were John A. Knife Chief and Lois Knife Chief of Pawnee. I was born in Anaheim California and as a family, we moved back to Oklahoma in 1991. At the time, my Uppit John’s health was declining and my father wanted to move closer to Pawnee so that he could spend more time with his father. After graduating from High School in 1995 I followed my Uppit into the Marine Corps where I served until being Honorably Discharged in 2003. I then went back to school where I completed a Bachelors in History which led to my being admitted into Law School. After my Graduation I made the decision to return to my tribe to continue to build upon the great things our tribal employees and elected officials had started here.

As the executive director, my responsibility is, first and foremost, to the laws, codes, history and culture of the Pawnee people. I have been in the process of drafting policies and rules that take into account our unique heritage, while at the same time, protecting our Nation from forces that too often do not recognize our cultural Identity. My job is also to administer the government in an efficient manner, ensuring fair hiring practices, fair disciplinary actions, and fostering a positive work environment where our employees feel as though they are a valued member of our extended Pawnee family. We have been working on many events, we have started construction on the Pawnee Nation Resources Center, the IHS parking lot, and we are also beginning the next ICDBG project: The Pawnee Nation Aquatic Center. I have challenged each division, department, and program to reach out to each other and support each other in all facets of governmental activities so that we can all be vested in the accomplishments we achieve.

I know that we have excellent employees who diligently work hard every day to provide services with very limited resources. It is a testament to their creativity, ingenuity, work ethic, and skill that the Pawnee Nation is moving forward in such a positive way. I commend them. I look forward to working with each and every one of you in the future and I encourage all citizens to become involved in their tribe, their government, and their community so that we can continue to grow and continue to serve. Thank you so much and may our Heavenly Father continue to provide our Nation with the many blessings he has bestowed upon us.

Respectfully,
Andrew Knife Chief

Annual Report Dedication

The Pawnee Nation dedicates the 2015 Annual Report to the "Pawnee Agency and Boarding School Historic District".

"Pawnee Agency and Boarding School Historic District" was added to the National Register of Historic Places in December of 2000.

This aerial photo shows several of the buildings that are a part of the “Pawnee Agency and Boarding School Historic District”. The original names of each of the buildings is shown in the table below and it also shows the year that each building opened or when construction began.

Several of these buildings that were once closed up after the Pawnee Indian School was closed in 1958 have since been renovated and are in use today for several of the programs and offices that provide services to the Pawnee Nation.

The aerial photo was taken by William H. Howell, Pawnee tribal member in December of 2001.

E: Schoolhouse, 1932
F: Staff Quarters, 1927
G: Girl’s Dorm, 1878

J: Boy’s Dorm, 1909
The Pawnee-Ponca Indian Hospital was originally constructed in 1929 and was completed in 1931. It was a fifty-five (55) bed facility. The west section originally was housing for nurses.

This building was flooded in the fall of 1959 and the flood water made it onto the main floor of the building. The patients and nurses were evacuated to another facility until the hospital could be cleaned up. The Indian Health Service closed the in-patient services and became an out-patient clinic in 1982. In 2001 construction began on a replacement facility and this facility was closed when the new Health Center opened in 2004.

It remained closed until it was transferred back to the Pawnee Nation and then was renovated with HUD funds and now houses several of the Health & Community Services Programs for the Pawnee Nation.

**Pawnee Agency Office, Current name “Bldg #1”**

The Pawnee Agency building was constructed in the late 1903 shortly after the arrival of the Pawnee People from Nebraska.

This building has been used for several office and in the 1990’s it housed the Tribal Finance Office, but now houses the Enrollment Office and the Pawnee Nation Tag Office. It is also used by the Nasharo “Chiefs” Council for their meetings that are held throughout the year.

**Superintendent’s Home**

The Superintendent’s Home is the oldest building in this historic district and was built in 1876.

It was originally built as an office and residence for the Indian Agent, then eventually became the home of the Pawnee Indian School superintendent. The original porch was replaced in 1916.

When the Indian School was closed in 1958, it became a rental home. It is currently not being used.
The Home Economics Building was constructed in 1908 as a combination steam laundry and carpenter shop. It was later converted into a storeroom in 1922. In the late 1920s and early 1930s it was used as a home economics building and then as a dormitory.

The Pawnee Nation has used it as Law Enforcement Office and Tribal Court. It is now used as the Tribal Court House after it was renovated in 2006 with a HUD grant. During renovation a concrete room was uncovered under one of the offices and a 40 foot deep cistern was uncovered under one of the hallways.

The 1932 Classroom Building was built in 1932 as a school building with classrooms, offices and an auditorium.

After the school was closed in 1958, it was later used as a nursing home in the 1960s. This building was renovated in 1976 and is now leased to the Bureau of Indian Affairs for the administrative offices of the Pawnee Agency. The original terrazzo flooring is still in good shape after all these years.

The Employee’s Club building was built in 1927 to replace frame building that had served the same purpose as apartments for some of the employees of the Indian School.

When the school closed in 1958 this building became a part of the Nursing Home that was also using the 1932 Classroom building.

The Pawnee Nation used this building for offices and eventually as a storage area. Funding was received from HUD and this building was renovated in 2007-2008 which added the exterior staircase on the south side and the wooden portion was completely rebuilt. It is now used by the Pawnee Nation College for it’s administrative offices with a couple of classrooms.
This building was later renovated in 1976 and now houses the Pawnee Nation Administrative Offices. The most current renovation occurred on the second floor in 2005 which created space for the Pawnee Nation College’s offices, classrooms and a multi-media classroom and both stairways were worked on. A lift for the handicapped was also installed by the east stairway.

**Employee’s Quarters, Current Name “Pawnee Gaming Commission Building”**

The Employee’s Quarters was built in 1927 and originally housed two classrooms and an office for the school principal. It was later converted to employee apartments after the 1932 Classroom Building opened.

After the school closed in 1958, it also became a rental unit and contained two apartments until the tribe took over the school buildings and has since been used as offices and as a fitness center. It is now being used as offices for the Gaming Commission.

**1913 Classroom, Current Name “Albin LeadingFox Center”**

The 1913 Classroom building was built in 1913 and was used as a schoolhouse until 1932 when the new 1932 School Building was completed and opened. This building was remodeled in 1933 for use as the school dining hall, which it was used as until 1958 when the school closed.

It was later used by the Pawnee Nation for office space and the kitchen and dining hall was used by the Title VI “Elderly Meals” Program until their new facility was built in 2000.

It was renovated in 2005 with HUD funds and is now used as classrooms and offices for the Pawnee Nation College. The kitchen area was renovated for use as a catering kitchen.
Boy’s Dormitory

The original boy’s dormitory was built in 1892 which later burned down in 1904. In 1909 a new dormitory was built and opened to be used by the boys attending school here at the Pawnee Indian School.

If you look on the north side of the existing building, you can see some of the outline of the original building, because a portion of the footing is still visible.

Since the closure of the school in 1958, this building has remained closed.
The Pawnee Nation Law Enforcement jurisdiction covers 29,951 acres located within three counties, Pawnee, Payne, and Kay, in Oklahoma. Tribal members reside in 32% of tribal Law Enforcement direct service area. The Pawnee Nation Law Enforcement is funded by the Bureau of Indian Affairs under a five year concurrent contract. The police department consists of one (1) Chief of Police, one (1) Assistant Chief and three (3) Patrol Officers, one (1) dispatcher/Administrative Assistant. The Pawnee Nation criminal statistics have risen in the past three years, due to business ventures (casinos, retail enterprises).

Officers are directed to respond to all calls and provide professional service to members of the Pawnee Nation. If requested, officers will assist City of Pawnee Police and Pawnee County officers. Officers investigate all crimes committed within the Tribe’s jurisdiction and make arrests when necessary. Routine building checks are performed nightly to assure all building within the Pawnee Reserve area is secured after hours.

The Pawnee Nation Police Department participated in the Community Health Representative Health Fair in June, gave in-house training on Human Trafficking, SORNA (Sex Offender Registration and Notification Act), and Violence Among Us – Active Shooter. The Law Enforcement Department in conjunction with the Pawnee Nation District Court and the Pawnee Nation Indian Child Welfare provided a Christmas Party for all children who are in the custody of the Pawnee Nation. Foster parents were also acknowledged due to the personal effort they make in caring for these children.

In 2015, the Pawnee Nation received a letter from the SMART office (Sentencing, Monitoring, Apprehend, Regulating and Tracking) regarding the final approval of SORNA (Sex Offenders Registration and Notification Act). The Pawnee Nation Law Enforcement shall maintain and operate pursuant to the provisions of the Pawnee Nation Registration Codes and Ordinances.

Health & Community Services Division (DHCS)

Mission of the Division of Health and Community Services

“To improve the overall wellness and lifestyle of Pawnee Tribal members and Native Americans within our community.”

DHCS accomplishes this by providing services such as health education, substance abuse counseling, nutrition, physical fitness, preservation of family, safety planning, and youth development. The Division of Health and Community Services consists of eight (programs) under (4) departments: Health-Community Health Representatives/Health Education and Special Diabetes Program for Indians; Prevention-Substance Abuse Program and Pawnee Pride; Nutrition Services-Food Distribution and Title VI; and Family Services-Ti-Hirasa Domestic Violence Program and Indian Child Welfare.

During 2014 & 2015, the Division was separated and there were three different supervisors overseeing their prospective programs. As of July 20, 2015, all eight programs were moved under one supervisor. Since then, much time has been put into making sure all programs are using the required tribal forms, following all policies and procedures, budgets and funding agency reports are up-to-date, and more importantly, re-establishing teamwork and communication in the division.

Community Health Representative & Health Education Programs

The Community Health Representative (CHR) and Health Education (HE) Programs provide an array of health based services to the both the Tribal and Non-tribal communities within Pawnee County. The overall goal for both of these programs is to advocate for and enhance the quality of life of the people we serve. The goals and objectives for both the CHR and Health Education programs were successfully met during 2015 with the outcomes listed below.

The CHR program gained one new staff member during 2015. Grant Hawkins came on board with the program as a Generalist in August 2015 and has been a great asset to the program. Other CHR staff members include Jaime Jestes, Program Coordinator, Jasha Lyons—Echo-Hawk, Administrative Assistant, and Sharon Swartz, Generalist.

Food Distribution Program

The Food Distribution Program (FDP) is a federal program that provides USDA foods to low-income households, including the elderly, and to Native American families residing in designated areas near reservations and in the State of Oklahoma. Our service area is all of Pawnee County and the northern part of Payne County. The program serves as an alternative to the Supplemental Nutrition Assistance Program (SNAP, formerly known as the Food Stamp Program).

The Food Distribution Program receives the monthly food shipment once a month and the produce shipment once a week. FDP staff continues to make courtesy calls to our participants at least two weeks before the end of the month to remind them to pick up their food. Food is given out over the counter with the participants packing their own food. Program staff provides carts and help participants load their food into their vehicles. Program staff also continues to make home deliveries to the elders, disabled, and to those households that have no transportation.

The program provides around (100) food products for our participants. For 2015, FDP has added fresh lemons and frozen pork chops to the program’s list of food. This year, the program added seasonal items of fresh cranberries and clementines (cuties) which were given out during November and December.

For 2015, program participation averaged around (261), which decreased from 2014. Home deliveries increased to around (15) for the year. These deliveries are mainly made to our elderly participants who are not able to come to the office.

Lastly, the program provides nutrition education to our participants (cookbooks, calendar, brochures), and occasionally will have food samples for our participants to try.

Serving the elders is a time-honored privilege. The Pawnee Nation financially supports the Elder Center program with approximately 2/3 of the total cost of operation. In addition our Nation’s Administration on Aging, Title VI programs provide federal funds

Directed to tribal elders to promote the delivery of supportive services including nutrition services and that such services and benefits should be provided in a manner that preserves and restores their respective dignity, self-respect, and cultural identities. Our volunteers are approved through the Human Resources Office and are appreciated for their services as we have the option to offer a meal during the meal hours. Feel welcome to volunteer! We also utilize a network of providers from the Pawnee Nation Division of Health & Community Services and the Pawnee Indian Health Center to conduct homebound intake, nutrition screening, nutrition education, nutrition assess and counseling, if appropriate.

The Board had two former PBC members on it – their guidance and advocacy reflects their love for the Pawnee Nation.

Elders just want to have fun! We took elders to health fairs, hockey game, WNBA basketball game, local cultural activities, food banks, annual food show, out of town shopping trips, and assisted with legal documents. Visited other tribes for holiday events, meals, and to play BINGO. Over (40) elders participated in the Intertribal Fun Day playing hand game and Bocce Ball. Now they want to play Bocce Ball at the Roundhouse dirt surface on a regular basis – we have four teams.

Vendor stated informally that out of the 150 kitchens that they supplied food to that the Pawnee Nation Elder Center kitchen is in the top three as being clean and following health codes.
Mission of the Pawnee Nation Department of Environmental Conservation and Safety (DECS) is to provide for a comprehensive-multimedia natural resource management service through policy development, education, compliance assistance, and enforcement-resulting in wise stewardship and utilization of natural resources throughout Pawnee Indian Country.

The DECS is tasked with the implementation of Title XI and XII of the Pawnee Nation Law and Order Code. Title XI is the Pawnee Nation Environmental Conservation and Safety Code which primarily provides for the protection of Tribal Harvest Privileges including fish, wildlife, and timber. Title XII is the Pawnee Nation Natural Resource Protection Act which provides for the protection of water, land, and air resources. The “Act” established Pawnee Nation’s Environmental Regulatory Commission in addition to the authority for the development and implementation of needed protective Regulations.

The DECS services are funded primarily by USEPA and Pawnee Nation. USEPA programs include the General Assistance Program which provides for capacity building and solid waste/hazmat response and enforcement, CWA Section 106 which provides for water resource investigations and enforcement monitoring, and CWA Section 319 which provides for Non-Point Source pollution assessments and management. Pawnee Nation funds provide for activities not directly covered by Federal assistance (water rights issues, fish and wildlife harvest issues, etc.)

Enforcement of natural resource laws and regulations are very challenging to investigate and litigate. The environment does not recognize political boundaries. Violations of natural resource and environmental laws and regulations often involve multiple jurisdictions. The enforcement staff of the DECS continues to work with a network of agencies (federal, State, Tribal, and local) to acquire proper training and certifications for the purpose of assuring the protection of human health and environment within the Pawnee Nation.

The DECS established 19 cases under the FY2015 reporting period. The following is an overview of the nature of violation and the number of violations:

Regional Administrator to acquire needed resources to get the wells and services into compliance. The DECS received approval of the Pawnee Nation Safe Drinking Water Regulations and is working on implementation.

The DECS staff drafted the proposed Pawnee Nation Waste Water Disposal Regulations and is in the process of finalizing for ERC review and PBC approval.

The Pawnee Nation Rangers actively participate in law enforcement training with the National Native American Law Enforcement Association and with the USDOJ’s Environment and Natural Resource Protection Division programs, in addition to USEPAs multimedia Inspectors training.

Department of Fire & Rescue

The primary mission of the Pawnee Nation Department of the Pawnee Nation Fire and Rescue is to protect life and property from the adverse effects of fires, medical emergencies, or exposure to dangerous conditions through fire suppression, rescue, disaster preparedness, fire prevention and community education.

Pawnee Nation Fire and Rescue firefighters were dispatched to approximately 52 runs in 2015. The dispatches include 18 Wild-land Fires, 5 Structure Fires, 15 Vehicle Accidents/Rescues, 6 Hazmat calls, and 8 Medical Calls, as well as Activating the Emergency Operations Center during severer weather events and providing for medical assistance during larger Pawnee nation events (Pow Wow, Tribal events).

Other services that Pawnee Nation Fire and Rescue provide are:
- Fire Code Enforcement
- Fire Inspections
- Fire Investigations
- Fire Prevention/Station Tours for Local Schools and Community
- Emergency Medical/CPR Training

There are approximately 6 certified firefighters. The DFR needs to acquire approx. 6 additional FFI to assure staffing requirements.

Department of Emergency Management (DEM)

The primary mission of the Pawnee Nation Department of Emergency Management (DEM) is to assist the Pawnee Nation and its communities for the preparation, mitigating, responding to and recovering from an isolated emergency to that of a long term recovery process following a nationally declared disaster.

Emergency Management is a dynamic process which has its foundation built upon both the essential functions and resources of the Pawnee Nation, and the ability of the Pawnee Nation Government effectively operate critical services while undergoing a potentially long-term recovery process. The DEM has assisted in the development and approval of the Pawnee Nation’s Hazard Mitigation Plan which enables the Pawnee Nation the ability to implement projects designed to minimize the impacts of disasters as well as the preservation of life and property.

The DEM works closely with the Local Emergency Planning Committees (LEPC) in both Payne and Pawnee Counties within Pawnee Indian Country. Activities include planning and training for responses associated with hazardous chemical spills/releases associated with rail roads, pipelines, over the road transport, and at fixed facilities.

The Pawnee Nation did not experience any disasters or require any long term recovery activities in the FY2015 reporting period. It did host and participate in the annual state/tribal wide “Earth Wind and Fire “exercise in November along with quarterly Web-EOC exercises. The staff participated in both Oklahoma Emergency Management/FEMA training and annual Hot Zone training.

The Education Division had a busy year! The division began with many programs but ended with less than half of them in tow. For many years the Tribal Historic Preservation and the Museum of the Pawnee Nation has been under the direction of Education but in the summer of 2015 the Cultural Resources Division came to be.

During the first quarter the Education Division hosted the Inaugural Empowering Youth Is Me Spring Break camp that was aimed at 6th – 12th grades. The camp was held during the week of March 16-20 and had 22 enrolled while 20 attended daily. The goal of the Pawnee Nation “Empowering Native Youth Is Me” camp was to empower local tribal youth to pursue lifestyles rich with cultural, educational, and traditional Pawnee Nation influences. The name of the camp is reflective of the role all those who participate play in revitalizing/promoting culture, educational journeys and traditional Pawnee ways. The abundance of participation from the Division of Community Health and Community Services, the Nation’s Executive Office, Pawnee Nation College, tribal members and elders were overwhelming. Highlights were artist Bunky Echohawk creating live art and Nasharo Head Chief Warren Pratt Jr. emceeing the entire event.

The month the JOM parent committee began planning and collaborating with the Pawnee Public Schools Title VII program to host an annual awards banquet for Native students. Each program partnered to hand out awards to deserving students who worked in their classrooms. The Pawnee Nation JOM Parent Committee presented 11 Outstanding Achievement awards to students pre-k thru 11th grade. They also presented 12 graduating JOM seniors with Pendleton laptop bags for their future academic endeavors.

Youth Services Coordinator, Christina Goodson, an Otoe-Missouria Tribal member, came aboard on June 8. She quickly hit the ground running finishing up the Youth Work Experience program that began with a job fair/orientation on June 1 & 2. In the third quarter, Youth Services wrapped up the Summer Youth Work Experience Program in July, chaperoned 5 youth to the annual Northern Oklahoma College’s Leadership Conference, held the annual Summer Enrichment Youth Camp in August, aided in school supply handout, and began this year’s Homework Assistance After School Program. Christina also served as a planning member for the Northern Oklahoma College Leadership Conference and collaborated with the Education Division to help send 9th grade tribal member O’sheana Aguilera to attend the Annual Ag Summit at the University of Arkansas.

In August, the Education Division Director and Youth Services Coordinator attended the NINEATC 166/477 National Conference in Durant, OK for PL 102-477 conference and training. It was very informative and helpful for Te-Tu-Koo planning in the upcoming year. It was a great opportunity to meet other programs in the area and see what tribes are doing with their 477 work plans. The staff in attendance also had the opportunity to participate in the general assembly for federal regulations updates as well as training sessions pertinent to their program services. Particularly Youth Services as Miss Goodson attended the JOM and Youth Empowerment sessions, while the Education Division Director attended OMB Circulars and 477 Financial Reporting.

Due to the 2015 budget issues all services were limited but the 477 programs were still able to meet the goals and objectives for their approved Work Plan. The Education & Training Specialist was also to assist clients in job searches & helping them apply for jobs online or referring them to other departments to inquire about other assistance including CHRI, Housing, SAP, and TERO.

In the fourth quarter, Youth Services wrapped up the Homework Assistance After-School Program and began a redevelopment of the Johnson O’Malley program. The Youth Services Coordinator also provided services for the Youth Supplemental Funds otherwise known as the school clothes program. As the need remained steady and funds dwindled, the coordinator approached the budget committee to request funding to continue this vital service, it was unanimously approved!

During the month of August the Pawnee Nation had a program review from the current program AOTR, Kenneth Lemieux. He visited our site from August 25-27 and spent time reviewing files and program service delivery as well as interviewing staff. At the end of the site visit he finished with an exit interview that was attended by all 477 staff, Grants & Contracts and the Executive Director. He sent a complete report to President and indicated a need for a handbook revision and updates to our services delivery. The program was positive and productive for all those who were involved.

Planning in the Education Division was in full swing as one of the priorities was to remove all cultural resources program out from under the guidance of the division. In the summer a Tribal Historic Preservation
Division of Education

Officer was hired to finalize the stages of planning and to make the Cultural Resources Division a reality. Upon completion of the new division Education was fully funded by the PL 102-477 funds and continued with the following programs: Education & Training, Higher Education and Youth Services.

In an effort to locate additional funding for the Youth Enhancement department the Education Director alongside the Planning Division, partnered with Global Trade and Technology (GT2), a national 501(c)(3) non-profit to write a proposal for a pilot after-school program. GT2 will support the tribe to develop and implement the pilot demonstration based on their 2025 School™ Model. The Pawnee Nation is willing to develop and demonstrate the K-12 After-School Program that can serve as a “Model” to be evaluated by other tribes and communities in Oklahoma. The Nation along with GT2 visited the offices of Congressman Lucas in an effort to receive support for the program. Negotiations are still ongoing but with a positive and optimistic outlook!

The college fair was a small success with many colleges in attendance such as Dartmouth, University of Oklahoma, Institute of American Indian Arts, Southeastern State University, Bacone College, Pawnee Nation College, and University of Central Oklahoma. Approximately 30 students from Pawnee and the surrounding area attended. Drawings were held every hour and Mr. Ned Williams, Superintendent of Pawnee Public Schools, spoke about the importance of obtaining higher education and the doors it can open. The division hopes to make this an annual event.

Higher Education Scholarship Program

The Higher Education Scholarship Program had a busy year as well! The Higher Education Scholarship Committee met 4 times this year to determine award amounts and recipients. They voted to fund a total of 104 applicants totaling approximately $131,000 in awards both federal and supplemental allocated by the Pawnee Business Council.

Those who were not selected were notified by letter and given the opportunity to appeal the committee’s decision. As there had never been an appeals process for the non-selected applicants the Education Division Director established a new one. However, due to limited funding only one reversal on decisions was granted this semester. This student was able to provide documentation the higher institution was at fault for the loss of required documents.

The Pawnee Nation Gaming Commission is an agency established by the Pawnee Business Council. The Pawnee Nation Gaming Ordinance was enacted in 1999. The ordinance created the opportunity for Gaming Activities to be conducted on Tribal Lands and created the Gaming Commission to regulate the Gaming Activities.

The Gaming Commission’s goal is to provide a safe environment to offer gaming and protect the integrity of the games offered on Nation Lands.

The Gaming Commission holds regular meetings at 5:30 PM on the first and third Monday of every month. The meetings are open to the public. This year the Gaming Commission held at least one meeting every month and had several special meetings regarding the creation and implementation of the Surveillance Department.

The Gaming Commission is funded by the assessment of revenues from Casino Operations on Pawnee Nation Lands. This assessment is a rate that is decided each year and levied against the previous year’s Casino Operations Gross Gaming Revenue as certified by each annual Audit.

This year, the total of the assessments against Casino Operations was $518,914.64.

The Gaming Commission rendered a decision to initiate the creation of a surveillance department to satisfy the requirement of StoneWolf Casino (a licensed facility) achieving Tier B. Movement from one tier to another can be very complex with regard to compliance. Upgrading in tier is a very noteworthy milestone in a facility’s reputation; tier is categorized by revenue and upgrades mean the facility is generating more revenue. NIGC Class II regulations define each tier by Gross Gaming Revenue for a year.

- **Tier A** – $3 Million to $8 Million
- **Tier B** – $8 Million to $15 Million
- **Tier C** – $15 Million and Over

The Surveillance Department has continued to hire more personnel. The initial plan was to staff twelve (12) personnel to continuously monitor the casino operations “24/7”. This was to allow a schedule which allowed on shift breaks and adequate days off between shifts. As a stipulation of manned surveillance, the operations room must be continuously staffed. There are many equipment requirements as well. Currently, we are meeting or exceeding these requirements set forth in the regulatory documents. We look to improve upon the systems in place as well as the operations room that is located at Stonewolf Casino, along with the expansion.

Training for the surveillance staff is developing and the employees are getting more acquainted with their positions and their equipment within the Pawnee Nation Surveillance Department. Training will be a main focus for the next year.

Our staff provides a fair and safe gaming atmosphere by reviewing the personnel that conduct gaming activities on our lands.

We license the following entities:

- **Gaming Facilities**
- **Employees of Gaming Facilities**
- **Employees of Vendors who provide gaming related services to licensed Facilities**

Fees generated from these activities help offset the costs of performing the required checks and references. This is a very important process when reviewing the role of the Gaming Commission and its functions. We are making sure that we have honest people conducting the gaming activities and protecting the assets of the Nation. This is one of the parts of the Commission that is reviewed periodically by State and Federal authorities.

One of our main goals this coming year will be to update and revise our Ordinance and Regulations. Working with the Pawnee Nation and the Casino Operations, we want to strengthen our controls while at the same time create opportunity for more efficiency in our operations.

Future Plans

The Pawnee Nation Tax Commissioners priority plan will be continue to update their governing documents and review new sources of revenues that are being collected by other tribes in tribal jurisdictions. The Tax Commissioners and Tax Manager plan to attend United Indian Nations of Oklahoma, Kansas Quarterly meeting and maintain their memberships with UINOKT. This body has been keeping their membership apprised due to the Citizen Potawatomi
Tribal Tax Department

The tribe has been dealing with issues related to local and state governments' attempts to tax tribal governments' businesses on tribal land. Primarily, the Citizen Potawatomi have been dealing with this ongoing attempt to attack tribal government sovereignty. The local and state government has been utilizing different tactics to force the Citizen Potawatomi tribe in collecting taxes for them on sales to non-tribal members at their local business and grocery store that resides on their jurisdictional land. The UNIOKT body deals with issues that are currently taking place or arising in Indian Country. There was discussion related to tribal government vehicle tag revenues being reviewed and potentially pursued as a revenue source for the state of Oklahoma, not good for tribal governments under current State of Oklahoma Governor Mary Fallin. A large portion of Cigarette Revenues is now going to the State of Oklahoma due to numerous tribal government compacts recently expired. Numerous tribal governments’ tobacco compacts and had to be renewed.

Travel and Training
Travel. The Pawnee Nation Tax Manager - Lyle E. Fields and the Tax Commissioners attended United Indian Nations of Oklahoma, Kansas and Texas (UNOKT) quarterly meetings related to Tribal tax governments and issues that have been developing with their tribal offices or matters that are affecting tribal sovereignty. Other tribes have been sharing tax issues arisen within their tribal jurisdiction. Although tribes vary in their business, resources and land base available to their tribe. The trip reports are shared in the 2015 Quarterly reports for the Pawnee Nation Tax office and the major changes or concerns that are impacting tribal governments’ taxing authority.

Kathy Daniels, Reva Mariah ShieldChief Gover and Cecelia Hawkins attended the National Intertribal Tax Alliance Conference on September 15, 2015 to September 18, 2015 to be apprised of changes with tribal tax departments and new revenue sources that tribal governments are now getting or in the process of developing regulations to be able to collect or other tribes charge for excise tax, etc. The Tax Commissioners are looking at new revenue source for tribes at this time, in which other tribes are requiring vendors permits for any business that sells merchandise to businesses that operate/reside on their tribal jurisdiction, examples of these vendors now being required to have permits are coffee vendors/food suppliers, etc.

Pawnee Tribal Development Corporation (PTDC) experienced an unprecedented year of growth in 2015, including tribal revenue share, business diversification and subsequent growth in employment opportunities. PTDC anticipates this growth trend to continue as the management team is strategically focused on the development of long-term programs and initiatives. More importantly, the success that has been achieved by PTDC would not be possible without the exceptional efforts and display of customer service from the entire staff of 160 employees.

This has also been a year of improved year in corporate/tribal communication efforts. In August, the PTDC Board of Directors, along with the PTDC Corporate Staff hosted a public meeting. Representatives of the Business Council, tribal members, even local community leaders were in attendance including the Mayor of Pawnee and the Chamber Manager. In efforts to communicate corporate transparency, departmental progress, and future developments, PTDC is looking forward to continue holding this meeting every year.

Joint meetings were held in April and October between the PTDC Board of Directors and the Pawnee Nation Business Council. The goal of the meetings was to create an environment to encourage communication between tribal and business leadership on new developments and an exchange of ideas in order to create an environment of synchronicity.

PawneeTDC.com, the new corporate website was launched in April. With the corporation on the cusp of so much growth toward the end of 2015, the website will serve as an on-going source of information regarding the exciting new developments and job opportunities taking place within the corporation.

Tribal Revenue Share

Pawnee Tribal Development Corporation’s overall revenue has continued to trend upward, resulting in a positive growth trend in total payments to the Pawnee Nation. The total payments to the Pawnee Nation have increased from $1,240,835 in 2012 to $2,167,201 in 2015. During this time PTDC has also dramatically decreased its liability section of the corporate balance sheet.

Corporate Business Portfolio Growth

PTDC has explored multiple business diversification opportunities and is continually looking at alternate ways to expand its business footprint. Possibilities that were considered but not pursued included a dialysis center, commercial refrigeration manufacturing, and pest control. Following are the areas of growth opportunities that the PTDC board of directors decided to pursue last year:

Snak-N-Pak/BJ’s Quickstop – PTDC began working on the possibility of purchasing Snak-N-Pak and BJ’s in late 2014. The PTDC board voted to purchase the two convenient stores in early 2015. PTDC took possession of the two businesses in April of 2015. This purchase added 14 full/part time job opportunities to the total employment at PTDC. The jobs with this business acquisition do not require a gaming license which has allowed PTDC to add more non-gaming related employment opportunities. The purchase of SNP & BJ’s gave PTDC 100% of the fuel market share in the City of Pawnee and also gives Pawnee Tribal Development Corporation visible presence in the Pawnee Community. A face lift is planned for SNP in the near future. SNP and BJ’s will be renamed and rebranded to better reflect its Pawnee Nation ownership.

Construction Diversification – PTDC began working on the majority share interest purchase of ELOHI, LLC in the second quarter of 2015. After several months of negotiations and going through the legal process, PTDC completed the majority share membership purchase of this construction LLC in January of 2016. This purchase further diversifies PTDC’s business portfolio outside of gaming. ELOHI, LLC, a native-owned construction management company that has been in operation since 2011. Previous owner, Christopher Michael Henson held 100% ownership. While he will retain a minority share and a management role, Pawnee Tribal Development Corporation purchased a majority share of the business. Mr. Henson possesses a unique military construction management background that will open many opportunities for this now tribally-owned entity. The name ELOHI is a Cherokee word that means “mother earth”. The company will be rebranded, both its name and logo, to reflect its ownership by the Pawnee Tribal Development Corporation. The newly purchased construction company will focus on creating a diverse construction portfolio with an emphasis on government contracting and growth in Indian Country. This business will help accomplish two of PTDC’s main goals, provide employment opportunities as well as net revenue back to Pawnee Nation.

Pani Star Designs – (screen printing business) – PTDC has been researching the screen-printing business for several years now. In the winter of 2015 the PTDC board decided to create its own screen printing operation. The building that was purchased in early 2015 (behind Snak-N-Pak) will facilitate the production shop of the t-shirts. The upstairs portion of this building has been renovated and cleaned up. The back upstairs portion will consist of the t-shirt printing warehouse. Equipment has been purchased and installed and PTDC is in the process of recruiting and training several new employees to print the shirts. PTDC has an immediate need in printing with its current business portfolio will become it’s customer by printing shirts for the casinos and retail sites. This print shop facility will not have an immediate retail site but PTDC plans to market shirts at its existing business retail sites.

StoneWolf Expansion – PTDC began the initial talks of a large casino expansion in 2014. At the beginning of 2015 PTDC began the process of developing a master plan for the StoneWolf Casino site along with the 20 acres that was purchased on the north adjacent side of the StoneWolf property. In the beginning it appeared that PTDC was going to be able to accomplish a full build and development of the master plan. After multiple bank denials and several long drawn out processes with other potential lenders, it was discovered that the master plan would have to be developed on a phase type build. The full build out approach was denied because of several reasons shared by the lenders. PTDC also has a limited capital injection for a project of this size and the project is viewed to have limited real estate collateral value due to the trust land status. Casino projects are classified in the higher risk loan category and the lending underwriters analyze the casino’s historical data versus historical plus expanded future cash flow. PTDC was able to secure financing from Bank of Oklahoma. Management anticipates that the first phase of the StoneWolf Casino expansion will begin in the spring of 2016.

Phase one – The first phase of the StoneWolf Casino expansion will consist of an add-on to the southeast corner of the StoneWolf Casino. The plan is to increase the slot count by approximately 150 slot machines and six table games. There will be a back of house addition behind the existing Travel Plaza which will give management some much needed office space, a new conference room, an information...
Corporate Business Portfolio Growth, cont’d

PTDC is in the process of getting the 20 acres north of the StoneWolf site put in to trust with the federal government. The land being put into trust will tremendously benefit the Pawnee Nation in the future by earning taxes from the commerce that takes place on the 20 acres property.

Marketing
Corporate marketing interacts with people at every aspect of the PTDC businesses, from employees to top-level management to customers and vendors. Through successful execution in the various areas of corporate marketing (see chart below), the corporation achieved a growth in revenue from 2012 to 2015 by 26.49% and an increase in gaming revenue of 22.57%. While experiencing continuous revenue growth, this has also been achieved in the midst of eliminating the expense of a contracted advertising agency, which has allowed the PTDC marketing department to fully function as an internal agency for the corporation. This decision contributed to an annual savings of more than $150,000 for the corporation.

Brand & Logo Development
Brand development is the practice of creating a name, symbol or design that identifies and differentiates a business. The foundation of a brand is the logo. The website, packaging and promotional materials -- all of which should integrate the logo -- communicate the brand.

- In the past year, the Trading Post Casino had undergone minor updates on the interior of the facility, including new games. The Trading Post Casino logo was nearly a decade old and in desperate need of an update too. A more modern
Tribal Development Corporation

Take on the Trading Post Casino logo was introduced in April.

- In a process that began in 2015, the name Pani Star Design was chosen for the new screen-printing company and the development of the logo is nearly complete.
- The recently purchased construction company is currently in the process of being rebranded to reflect the majority Pawnee tribal ownership.

Casino Promotions
In 2015, a promotional strategy to drive more play by promotion participation at all three PTDC casinos was successfully implemented. The strategy utilized the “global” feature in our patron management system. By making customer play and ticketing inclusive of all three PTDC casinos, this allowed for much larger scale promotions. In addition to the buzz created around the promotional prizes, the customers were able to play at any of the three facilities to participate in promotions, which in turn drove even more play.

Events & Advertising Sponsorships
PTDC businesses are an active part of events and advertising sponsorships in their respective target market communities. Events and advertising sponsorships give front-of-mind brand recognition to PTDC businesses.

The Pawnee Nation ‘Chaticks si Chaticks’ Rodeo event and the Cowboy Country 105.5 studio sponsorship with Stillwater Radio are two examples. The marketing department, along with a representative committee from the Board of Directors spearheaded the Pawnee Nation ‘Chaticks si Chaticks’ Rodeo which was held in September during Labor Day weekend.

The KGFY Cowboy Country 105.5 studio sponsorship by StoneWolf Casino was negotiated in January and introduced in February. The sponsorship has been a powerful branding opportunity for StoneWolf Casino keeping the name on the forefront of listener’s minds. The opening billboard for the popular Stillwater radio station reads, “From the StoneWolf Casino studios this is KGFY…” The sponsorship package offers many additional opportunities with KGFY sponsored promotions. Such as the StoneWolf Casino’s title sponsorship of the ‘Women’s Night Out’ tradeshow held at the Payne County Expo Center, which is included as part of the sponsorship.

Another example is the OSU Cowboys Sports Properties partnership agreement with StoneWolf Casino, which includes: soccer signage, football program ads and Homecoming Tailgate party display, Men’s and Women’s basketball, and Wrestling instant replay ads.

October - April:
- StoneWolf Casino ‘Turnpike Rivalry’ Cup, Tulsa Oilers v. Wichita Thunder
- PTDC Advertising Sponsorship at NCAIED’s RES Conference
- PTDC Advertising Sponsorship at NIGA’s Wendell Chino Banquet
- OSU Men’s Basketball v. TCU – concourse display (3/4)
- Pawnee Nation Night at the Tulsa Oilers (3/13)
- Howler’s Famous BBQ at the ‘Taste of Stillwater’ Event (3/24)
- StoneWolf Casino ‘Women’s Night Out’ Tradeshow (3/26)
- OSU Staff Celebration Day (5/21)

- All-Star Game (5/29)
- Stillwater Chamber ‘Business After Hours’ hosted by StoneWolf & Howler’s (6/16)
- Pawnee Indian Veterans Homecoming (7/2 - 7/5)
- Oil Patch Festival (7/4)
- Cushing Community Rodeo (7/10-7/11)
- Old Time Saturday Night (8/1)
- Pawnee Bill Memorial Rodeo (8/6 – 8/8)

August:
- Pawnee Nation ‘Chaticks si Chaticks’ Rodeo (9/4 - 9/5)

Employment Growth
Extensive efforts have been placed toward the practice of tribal preference in hiring and promotions, as illustrated in the included charts. Through numerous discussions amongst the HR team and the Director of Tribal Employment Rights, areas for improving the current documentation and hiring practices have been identified. As a result, a consistent increase has been seen in total employment throughout PTDC, as well as the Pawnee Tribal employment percentage. These numbers have been anticipated to continue to grow as the corporation branches out to non-gaming related business ventures, which will create new and additional employment opportunities for tribal members.

Human Resources
The Human Resources Department at Pawnee Tribal Development Corporation has made great progress in 2015 with the development and implementation of
new programs. These new programs and initiatives include a transition from Paychex to Paycom, a comprehensive revision campaign on the PTDC System of Internal Controls, organizational development and restructuring, staffing strategies involved with the opening of new businesses, the launch of an online application database to improve the efficiency of the recruiting and hiring process, a new online training module with Casino Essentials, a more affordable and complete benefits package including a 401k plan with Standard Financial that will help optimize recruiting efforts and retention. These achievements will ultimately help improve the employment experience for both current and future staff members, and will help ensure a more effective and efficient future for business operations and administration. If you are interested in joining the growth that is occurring at Pawnee Tribal Development Corporation, please visit the careers page at pawneetdc.com or contact the Human Resources Department at (918) 762-4832 ext. 10.

Hello Friends!

The rise of the Pawnee Tribal Business enterprises this past year has given us the opportunities to provide more jobs for our tribal citizens. Our successes could not have been possible without a strong commitment by all the employees of the Pawnee Nation. To that we are grateful and will continue to strive to make the Pawnee Nation a great environment in which to work. We know our achievements will be reached, as long as we work together and allow nothing to prevent us from attaining the dreams and visions for our Pawnee people now and for generations to come.

Nine Pawnee Code Talkers of World War II were inducted into the Oklahoma Military Hall of Fame on November 13 and it was my honor to serve as the chairperson for the OMHF Ceremony and Banquet for the Pawnee Nation. I did not take this responsibility lightly and it took many hours to coordinate with the OMHF chairperson, OMHF officers, and the grateful family recipients. I hope it brought dignity and pride to the Pawnee Nation throughout this endeavor to honor these nine men and their respective family representatives whom all were presented this special Medal of Honor during the OMHF Banquet.

We Pawnees have proven to be a strong people and it is my aspiration that the sacrifices our ancestral tribal leaders made when they came to Oklahoma, will enable us to recover some of our lost ways of respect for our elders, preparing our children with the knowledge of our Pawnee traditions, and standing together in times of need. From my elders before me, I know that putting these beliefs into action is what kept Pawnee Nation as one family and will continue to shape our self-worth in belonging. With the addition of the newly formed Cultural Resources Division this year, my hope is that we will be able to educate tribal members and other visitors about the historical and contemporary qualities of the Pawnees.

Together with this publication of the 2015 Annual Report, we anticipate it will be of assistance as a reference if help is needed and to provide the transluence of the Pawnee Nation as requested by many.

May God bless each and every one of you and may He also bless the efforts we are making as a Nation throughout 2016.

Gratefully,
Liana Chapman Teter, M.Ed.
