4. Sports Commission Update

Mr. Spottedhorsechief introduced Lyle Fields and Pius Spottedhorsechief as commissioners of the Pawnee Nation Sports Commission and asked them to report on their trip for a Sports Commission Conference.

Mr. Fields mentioned that the commission has attended six events to work with staff and other commissioners to learn about how events are run. This has helped with the development and process of hosting an event by allowing the commission to shadow them and see what putting on an event entails. The commission is working on their regulations and looking forward to getting that approved so they can start planning their own events.

Mr. Pius Spottedhorsechief mentioned that he was excited about the organization and it is moving along fast and looking forward to their first event. The Commission is getting a lot of support from the other tribes. These events will bring more job opportunities and revenue to the Tribe.

Mr. Adrian Spottedhorsechief commended all the Commissioners on the work that they did with this commission. He is thankful to the other tribes to open their doors to the Pawnee Nation and share their information with us. Joe Miller, who is with a state agency, has been really supportive of us and tribes establishing commissions. While in San Diego the Commission received associate membership which entails the access to all the databases on the fighters. They are looking to gain full membership and are looking to gain that membership by the end of this year. With the help of the other tribes and commissions it makes it easy to bring the information here and get the ball rolling.

XII. Open Forum

Elizabeth Blackowl asked about the Commissioners required to have a background checks and asked the Council to let the appointees know right away so that they can participate in the meetings. Is this a policy that has been established? Because in the ordinance does not require a background check.

Cynthia Butler mentioned that it is in the Committee and Commission handbook that was established. When the background check is completed he will be notified.

Ms. Blackowl asked if at some point will the Commission need to put this in the ordinance.

President Nuttle said that the reason the background checks were initiated was because of the Housing Authority having to have background checks done. In a meeting it was suggested that if we are going to do background checks then we should do them across the board and require background checks for all commissioners. HR started sending out the information for the background check and then proceeded with the process. The background check will need to be completed and satisfactory before the commissioner would be able to sit on the commission.

Mr. Leroy Downs commended the Council on the Business meeting they have conducted today. He liked the way the Council interact with one another. He is representing CDBC, and they are here to talk about health insurance for Native Americans and Tribal members. They have developed a program to simplify the program for tribes. They take the ACA funds and use that to try and help Native Americans with healthcare.

Mr. Steve Covert mentioned that the reason he became involved in Medicare was he lost a son to cancer. He passed out some information to the Council to look at. Being a sovereign Nation, they provide healthcare to its
members. Under the new umbrella of healthcare, costs are low and people do not realize that they are eligible for this low cost.

President Nuttle introduced them to the HR Manager, Nicholas Wahpepah and asked Nicholas to get with them on the getting the information.

Ms. Littlesun asked why there was a Council member on the HR Committee.

President Nuttle said that this issue came about the first meeting they had, she is on this committee because of her experience and background. The Committee does not do the hiring. All they do is review and rank the applicants make recommendations to the Director. Nicholas has addressed the conflict of interest issues and she will not review any applications that will need to come before the Council.

Ms. Thompson asked if the Committee could implement that if a Tribal member is not selected for a position, they provide a reason why they were not chosen.

Ms. Littlesun said she believes in all fairness and no employee should be on that committee. There are division directors and employees who are disgruntled and believe it is not a fair process. She would like it to be people who are not associated with the tribe.

Ms. Thompson suggested that the names not be on the application when reviewed so that they do not know who they are and are looking at just the qualifications.

President Nuttle mentioned that the recommendation was mentioned to the HR Manager and he is going to do a comparison on how the computer system ranks the applicants versus the way the Committee would rank them. There still has to be the human factor in the process, but the recommendation was to rank on the qualifications.

Ms. Littlesun said she has been complaining about the ranking system and people are not happy with the system because it was so flawed. Her suggestion was to the committee to get rid of the digital ranking system. There is a flaw and it needs to be fixed.

Mrs. Hare said that coming on the committee the members want to use the paycom ranking but because of the problems they are monitoring and working the bugs out. They would like it to be policy development and work on developing human capitol.
