X. **Open Forum**

Ann Collins announced the winners for the silent auction and other raffles.

John Only A Chief wanted to thank the former Presidents for being in attendance for this meeting. He is grateful for their presence. He saw a posting on the Tribal Website about with the Pawnee Nation President resigning. As a tribal member he was a little confused. First there was resignation, then he was hearing that there was a resceding of the resignation. He does not believe that this is a good showing of our nation or of our president. This is his opinion and he knows this is a difficult situation. Ultimately we have a constitution to govern and hope that the Council takes it in consideration. He would like better for our people. People are going to disagree but this is his opinion.

Duane Pratt wanted to thank Mr. Only A Chief for recognizing the former Presidents of the Business Council. Being a council person is an awesome responsibility. The oath that the Council people took was to uphold and defend and go along with the Tribal Constitution. He served on the Pawnee Business Council many times and in different capacities. When first coming into ofice they did not have the responsibility or luxury of being able to really govern themselves. The Indian self-
determination Act changed all of that. When it was changed there were some of the elder members who could not grasp the idea to govern ones self. We were in the realm of establishing our own government. In the area of Law Enforcement, the Council people had a hard time grasping that, they always depended on the state and the city. In the area of the court’s jurisdiction, it was unheard of here in Pawnee. He seen a lot of change and through the course of the year, as administrations changed, he has witnessed disappointments of our Nation. Seeing the tribe go into great debt because of wrong leadership and also sitting by and watching the council wrongfully remove a President and the people later reinstating the same person. The thing that is really important is for all of our tribal council members are to be responsible, upright, outstanding individuals. You cannot set rules if you can’t govern your own behavior. You cannot govern others if you cannot govern yourself. He believes the Constitution clearly defines what is to take place and you have sworn to abide by it, not to tear it down or look for loop holes. We are talking about governing a Nation. He asked why the Council is going into executive session to discuss this matter. Mr. Pratt feels that the matter needs to be transparent.

Mr. William Howell agrees with Mr. Pratt. He has been around watching the previous Councils. What we need to do is pray for our president. She is making bad decisions and pray she can overcome them. Even with those bad decisions, she is an elected official; she is not a tribal employee. They spent hours looking at the amendments to let the people vote on them. The Constitution governs our people. This is important and it is important to him. This was discussed back in the day and it is why they put it in the revisions. The people voted on it and voted for it. Our President is family, pray for her, but we have to have good representatives on our tribal council. If something goes wrong we have to move forward and move along. Do what needs to be done and do it openly.

Mr. Marshall Gover said that it is up to the council to interpret the way they want to interpret the Constitution. What disappointed him was when he turned on the television this morning and the news anchor person mentioned, who he knows to be the Greatest Nation on this earth and they are talking about our Great Pawnee Nations President. That we are in the news and that our President was in another bad situation. We might miss out on a $3.7 million grant this week because the President is not there to present that to our senators. That hurts us as a Nation to miss out on an opportunity like that. It’s just not hurting us, but hurting the future generations. It is hurting not just for our Pawnee People but hurting all of Indian Country from the East coast to the West coast. When one tribal official gets in trouble it affects the whole tribe. It affects us all.

Mr. Ron Rice said that in his heart he feels the same way. He was looking at the picture up there on the wall and those men. Our folks, our relatives, what they would of said during their time about this. Those leaders would have got up and spoke on behalf of the Nation. He appreciates the fact that it was said that our relative is hurting right now and we should pray on her behalf. Much of what was said is how we are affected by this. He was saddened by all the news of the President and his thoughts go out her children and what they have to face and have to see this made public. To see their mothers face on the television like that. It hurts but we all have choices to make each day. The wrong choice was made over 10 times, over and over again. We are going to face the consequences if we work against our laws, none the less what has happened has happened and we need to look for healing. We need to move on. What kind of impact do we have? These things are all public knowledge. He encourages the Council to make the right choices.

Ms. Sammye Adson thanked Mr. Rice and the gentlemen that spoke today. She is about transparency and would be open to do that. Unfortunately there is more to be said. She believes that there were some gaps. There was a lot of missing information and as a Council person she is disappointed. There is more to this and feels that the Council was overlooked in communication. The Council needs that
time as leadership to come together and talk it out. Right now there is just a lot of disappointment and consideration.

Ms. Carol Nuttle told the Council members that she trusts the Council to abide by the Constitution. In her opinion, the whole council should have been pulled together and be able to speak. The highest body of the Pawnee Nation should have had that opportunity to talk and discuss among each other and then make a decision. That did not happen and is an error. She supports her niece Misty and who puts in the late hours at that office and works diligently for our people. She has taken out of her own pocket and helped others. She has also served on the PBC and put her life on hold to serve for the Pawnee people. She has stripes when she has been beaten down by our own people. Ms. Nuttle urges the Council to make the right decision.

Mr. Adrian Spottedhorsechief said that there has been a lot of talk about prayer and wanted to invite everyone over to the roundhouse to the young dog dance Saturday to be a part one of our ceremonies.

Motion was made by Phammie Littlesun to go into Executive Session, seconded by Adrian Spottedhorsechief.
